# PVA EXPO PRAHA

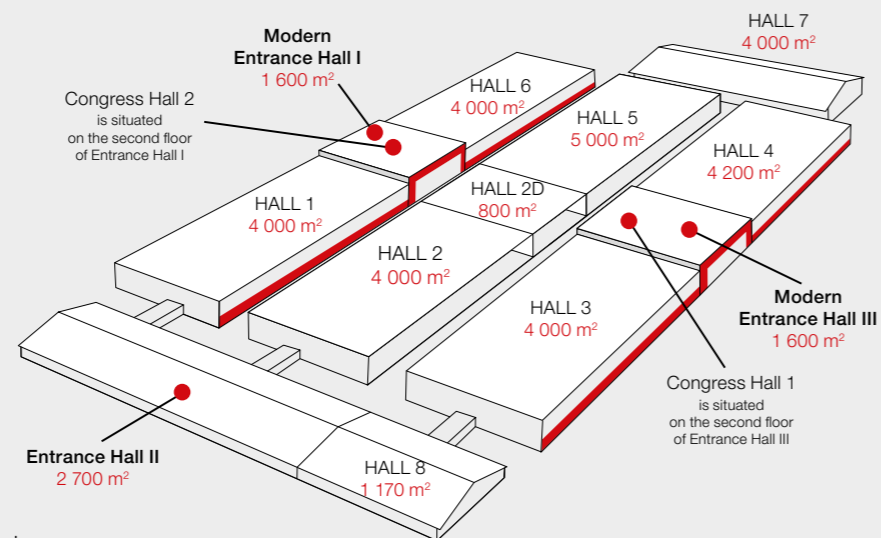

The history of the PVA EXPO PRAHA dates back to 1998, when the trade fair administration at the site introduced its first projects focused on architecture and construction. Over time, we have developed a cutting-edge exhibition center in the Prague's Letňany district. Today's multifunctional complex hosts major exhibitions and trade fairs across diverse industries.

As a leader in the Czech exhibition industry and the top venue in Prague, we are a trusted business partner for event organizers not only from the Czech Republic, but also from Europe and other countries worldwide.

Construction fairs are an ideal platform to connect construction companies, manufacturers, and importers with their existing and potential customers. With their unique scope and frequency throughout the year, these events have built a strong reputation across all construction sectors. The fairs also enjoy the support of professional associations, unions, and industry groups. The presence of industry leaders and top brands is a traditional part of the fairs, along with a rich accompanying program, including conferences and professional competitions. The overall trade fair numbers prove the strength and prospects of the construction sector.

# AUTO-MOTO AND BOATS

Trade fairs from the world of transportation rank among the most prestigious events at our exhibition center, be it a record-breaking attendance (e.g. MOTOCYKL PRAHA with nearly 60,000 visitors), national premieres (e.g. Škoda Auto, Peugeot, Renault), or innovations in sustainable mobility, these events showcase the latest trends. In addition, CZECHBUS is the only specialized trade fair for the bus industry in Central Europe.

These fairs gain prestige from the presence of the most important state officials and industry leaders. We greatly value the participation of President Petr Pavel, the Minister of Transport, and senior representatives of major automotive manufacturers.

# HOME AND GARDEN

The largest trade fairs for home, design, and garden in the Czech Republic offer an extensive presentation of furniture and garden architecture.

The fairs unite the world of designers with design enthusiasts. Held alongside, the fairs for garden architecture, greenery, furniture, and garden equipment bring together the industries that create a perfect home. The fairs significantly foster business contacts in the industry and feature a professional accompanying program with Czech and international designers and architects.

# HEALTHCARE

The exhibition center also hosts major events in the Czech medicine. The international dental fair PRAGODENT traditionally presents innovations, trends, products, and technologies for dentists, nurses, technicians, dental hygienists, and other professionals. PRAGOMEDICA is a key fair for medical doctors, pharmacists, medical staff, and healthcare industry leaders. Both fairs offer a rich accompanying program guaranteed by professional partners, such as the international congress Prague Dental Days, which hosts over 2,000 participants.

# SPECIAL PROJECTS

Accompanying programs and specialized professional events are playing an increasingly important role at trade fairs. As a result, our portfolio of professional competitions, congresses, and conferences continues to grow, covering fields such as architecture, energy, insurance, printing, design, tourism, hotel industry, and gastronomy.

The exhibition center has thus become a meeting point for leading personalities from various industries, fostering discussions on current topics, exchange of experience, and inspiration for large and small businesses.
